Hi Eva,

Duly noted. I'll check with MMGL but given the site has been vacant for some time I do not anticipate any waivers to enter the site. One was not needed for a recent site visit. The construction schedule has not yet been finalized but anticipate confirmation soon.

Regards,  
Erin

Thanks, Erin. Just fyi- I have mandatory training on Nov. 3 and 4 so I'm unavailable then. If the wall construction is planned for the 5<sup>th</sup> (in the morning, as I have a call/meeting with Matt, Dave and Scott on Rhone Poulenc 1:30-3 pm) or 6<sup>th</sup>, I can probably make it. But, of course, don't hold things up if those dates aren't available. Please inform PEO that I'm not allowed to sign liability waivers (see attached) as a condition of access. Please call or email if you have questions. Thanks.

Hi Everyone,

I have already been in discussion with MMGL to arrange at least one visit for DEQ folks and would be happy to do this for EPA as well. Also, I will be visiting the site on a regular basis during the construction period.

As of today, the tentative schedule for wall construction (estimated for approximately 3 days) is the week of 11/2. I'll follow-up on solid dates when they are confirmed.

Regards,  
Erin

Hi Erin,

I know that there is quite a bit of interest in observing the trench construction on the DEQ side as well. Is a site visit, that includes EPA, during construction something that you can work with MMGL to plan and schedule?

Matt

Hi all-

I'm interested in visiting PEO during their trench construction and was wondering when this would be occurring. It'd also be great if other site visits could be arranged the same time that might also be having some activity....GS Roofing? Gunderson? Burgard Schnitzer? SW inspections with CoP? Thanks.

Eva
